PROFESSIONAL JOURNEY

Process and Compliance Analyst

- Conducted monthly process compliance checks for all projects within the ISO and ISMS scope, ensuring comprehensive coverage of all process areas and regularly reporting metrics to management and stakeholders to drive continuous improvement initiatives.
- Provided frequent facilitation and support to project teams as needed to improve compliance levels.
- Integrated Agile principles into process improvement initiatives, fostering adaptability and responsiveness to evolving business requirements.
- Actively participated in Quality Management System review meetings, planning, and executing internal quality audits.
- Contributed to top management review meetings, presenting project process review statuses and escalating issues to solicit support for project initiatives.
- Ensured the delivery of bug-free software to clients and consistently delivered high-quality work products to achieve exceptional levels of customer satisfaction via process check.
- Led organization-wide implementations of ISO 27001:2022 & 9001:2015 standards, GDPR - ensuring strict adherence to quality standards and covering any identified gaps in processes DPIA and DPO activities.
- Periodical training conducted on ISMS, Quality induction, Risk Management, PCI, RCA, Incident Management, etc..
- Developed various process documents and contributed to Quality Management System releases.
- Process check on agile projects with sprint/ticket/release based projects and visibility on some of project management tools like Azure, Jira, You track. Some test management tools like test link, selenium. Other common tools like Git, Notion.
- Developed quarterly plans for BCP, Vulnerability testing, backup restoration testing, coordinating with IT, addressing issues, and delivering final reports to stakeholders.
- Generated dashboards and metrics reports at the organizational level for review with stakeholders to guide project direction.
- Reviewed project risks weekly through the Risk review process and collaborated with project teams to mitigate identified risks. Also, conducted risk assessments for new processes and updates, ensuring potential risks were identified and mitigated before implementation.
- Conducted internal audits and facilitated external audits to ensure compliance with standards and regulations. Prepared and presented audit findings and corrective action plans to senior management.
- Spearheaded the collection, consolidation, and analysis of project and functional metrics, leveraging data insights to drive process improvements.
